Notes :

- 1 The above Financial Results have been reviewed by the Audit Committee and subsequently approved by the Board of Directors at their meetings held on 9th August, 2016 and 10th August, 2016 respectively.
- 2 The Statutory Auditors have carried out limited review of Standalone Financial Results of the Company for the quarter ended on 30th June, 2016 and comparative quarter ended on 30th June, 2015.
- 3 The Company has adopted Indian Accounting Standards ("Ind AS") from 1st April, 2016 and accordingly these financial results have been prepared in accordance with the recognition and measurement principles laid down in the Ind AS 34 Interim Financial Reporting prescribed under Section 133 of the Companies Act, 2013 read with the relevant rules issued thereunder and the other accounting principles generally accepted in India. Consequently, results for the previous quarter ended 30th June 2015 have been restated in accordance with Ind AS.
- 4 Based on favourable arbitration award, the Company has raised a reimbursement claim along with interest thereon on customer for non-lifting of contractual coal quantity and price escalation in mining business. Current period results include impact on this account to the tune of ₹ 182.36 crs in standalone results and ₹ 195.60 crs in consolidated results.
- 5 Joint venture entities have been consolidated using equity method of accounting under Ind AS. Accordingly, the Company has directly recognised its share of profit or loss and net assets instead of proportionate consolidation. This has resulted in reduction of Net Sales / Income from operations reported for the quarter ended 30th June 2015 by ₹ 2,414.57 crores.

Notes to Profit Reconciliation :

a) MTM on derivative financial instruments :

Derivative financial instruments have been fair valued through profit and loss under Ind AS. Under Previous GAAP, the net mark to market losses on derivative financial instruments, other than those designated as cash flow hedges, were recognised in profit and loss, and the net gains, if any, were ignored.

b) Impact on accounting of financial instruments at amortised cost :

The Company has valued financial assets (other than investment in joint ventures, subsidiaries and associates which are accounted at cost) and financial liabilities, at fair value at the inception of the contract. Impact of fair value changes as on date of transition, is recognised in opening reserves. These financial instruments have been subsequently accounted under the amortised cost model, with resultant changes thereafter being recognised in profit and loss account.

c) Actuarial Valuation :

Actuarial gains / losses on account of changes in actuarial assumptions are recognised in other comprehensive income.

d) Service concession accounting :

As per Ind AS, Property, Plant & Equipment (PPE) related to service concession arrangements for providing agri-storage facilities has been derecognised and classified as financial asset and intangible asset.

e) Other Ind AS impact includes :

- > Asset retirement obligation and its amortisation
- > Reversal of amortised goodwill
- > Amortisation of government grants as deferred income

f) Deferred tax :

The impact of transition adjustments together with Ind AS mandate of using balance sheet approach (against profit and loss approach in the previous GAAP) for computation of deferred taxes has resulted in charge to reserves on the date of transition, with consequential impact in the profit and loss account for the subsequent periods.
