Australian Queensland Premier reaffirms commitment to Adani's mine project

Queensland Premier Leads 8 member mayoral and 25 member delegation in India to visit Mundra Port and power plant, the crown jewel of Adani Group

EDITOR'S SYNOPSIS

- Premier Anastacia Palaszczuk reaffirms commitment to the \$16.5 billion Carmichael mine coal and rail project
- Coal from, Carmichael mine to be used to generate power for 100 million Indians
- Adani Group committed to generate 10,000 direct/indirect jobs in Queensland
- Adani Group promises to create world class infrastructure in Queensland
- Adani Group has already invested \$3.3 billion in the coal mine, railway and port project in Australia
- Mayoral delegation to also visit world's largest solar plant set up by Adani at Kamuthi, Tamil Nadu

Ahmedabad, March 17, 2017: Adani Group, a global integrated infrastructure conglomerate, today hosted a high level delegation led by Ms. Anastacia Palaszczuk, Premier of Queensland, Australia at Mundra Port who reaffirmed Queensland government's commitment to the \$16.5 billion Carmichael mine project.

Last year, the Queensland state's department of environment and heritage protection (EHP) issued a final environmental authority (EA) for Adani's Carmichael Mine project in the Galilee Basin. The EA application was vigorously assessed by the department and acted on recommendations made by the land court.

Adani group is confident of fulfilling the strict conditions placed on the EA, including extra requirements based on the land court's recommendations and ensure this mine will not pose an unacceptable risk to the environment.

Earlier in the day, the delegation visited Mundra Port, the crown jewel of Adani Group's infrastructure prowess and are scheduled to visit Kamuthi in Tamil Nadu to see the world's largest solar project which generates 648 megawatts of green electricity.

Queensland premier, Ms. Palaszczuk said after the visit, "I am very happy to be here at Mundra and it is wonderful to see the port to solar plant to Agri businesses of Adani and its associated infrastructure. Indians are a great community in Australia and the Indo-Australian relations are growing from strength to strength. The Australian Prime Minister will also be visiting India shortly and that shows the significance of the relationship. My visit here shows that Queensland supports the Adani project for its potential to create many jobs for regional Queensland and will also help boost the Indian economy. Queensland will also be part of the solar project of Adani and we are delighted to be part of Adani in that project too."

"We extend a warm welcome to the Honourable Premier Ms Palaszczuk along with the mayoral delegation and are very pleased to showcase our world class infrastructure created at Mundra by Adani Group. Our mining project will create economic prosperity and creation of thousands of jobs for the people of regional Queensland. The Carmichael mine will help bring energy security to millions of Indians who do not have access to electricity. The Adani group is committed to nation building projects in the energy and infrastructure space which will create economic and social benefits for people of India and Australia," said Mr. Gautam Adani, Chairman, Adani Group.

The Premier and delegation visit is also significant in terms of Indo-Australian trade partnership as it lays a foundation stone of trade and commerce, especially in natural resources. The project involves construction of a near-400km rail line from the Carmichael mine site to the Adani owned and operated bulk coal-loading facility at Abbott Point near Bowen.

"Adani is similarly proud to be bringing this project to fruition and thereby generate tens of thousands of jobs for regional Queensland while help providing electricity to millions of Indians. The project will lead towards the overall development of the region in leaps and bounds. Adani will use mining support services from Mackay-Bowen region, Rockhampton and Townsville have been shortlisted by Adani as a Fly In Fly Out hub. The Mackay-Bowen region will also provide Adani with port services, as well as become the HQ for Adani's rail and port operations." said Mr. Jeyakumar Janakaraj, CEO, Adani Australia.

Adani Group ventured into Australia commenced in 2010 with the purchase of the Greenfield Carmichael Coal Mine in the Galilee Basin, Central Queensland, and the Port of Abbot Point near Bowen in North Queensland.

Our vision is to operate a vertically integrated model - with the extraction of coal from our Carmichael Mine, transported by rail to Abbot Point, and exported to meet consumer and business demands in offshore markets.

The project will build Australia's largest thermal coal mine in the north Galilee Basin approximately 160km north-west of Clermont in Central Queensland, linked by a standard gauge North Galilee Basin Rail Line to two terminals at Abbot Point Port near Bowen.

Over its 60 year of the mine's life this major infrastructure will not only support Adani's operations, the railway line and port, but will also provide infrastructure for the development of other proposed mines, extending the mining boom and allowing more jobs to be generated now and into the future.

The benefits will extend locally, regionally and across Queensland providing much needed job opportunities and generating around \$22 billion in state mining taxes and royalties in just the first half of the project life. This will

assist much needed public funding to help deliver schools, hospitals, roads and other services and stimulating activity throughout the economy.

About Adani Group

The Adani Group is one of India's leading business houses with revenue of over \$12 billion.

Founded in 1988, Adani has grown to become a global integrated infrastructure player with businesses in key industry verticals - resources, logistics, energy and agro. The integrated model is well adapted to the infrastructure challenges of the emerging economies.

Adani Group's growth and vision has always been in sync with the idea of Nation Building. We live in the same communities where we operate and take our responsibility towards contributing to the betterment of the society very seriously. Through Adani Foundation, we ensure development and progress is sustainable and inclusive; not just for the people living in these areas, but the environment on the whole. At Adani, we believe in delivering benefits that transcend our immediate stakeholders.

Resources means obtaining Coal from mines and trading;

Adani is developing and operating mines in India, Indonesia and Australia as well as importing and trading coal from many other countries. Currently, we are the largest coal importers in India. We also have extensive interests in oil and gas exploration. Our coal extraction has increased to 11 MMT in 2016 and we aim to achieve coal trading and mining volume of 200 MMT per annum by 2020, thereby making Adani one of the largest mining groups in the world.

Logistics denotes a large network of Ports, Special Economic Zone (SEZ) and Multi-Modal Logistics - Railways and Ships.

Adani owns and operates eight ports and terminals in India. These are at Mundra, Dahej, Kandla and Hazira in Gujarat, Dhamra in Orissa, Mormugao in Goa, Visakhapatnam in Andhra Pradesh and Katupalli in Chennai. Mundra Port, which is the largest port in India, benefits from a deep draft, first-class infrastructure and SEZ status. Cargo volumes touched 152 MMT mark in 2016. Adani is developing a terminal at Ennore in Tamil Nadu and Vizhinjam.

Energy involves Power generation, Renewables, transmission and Gas distribution.

Adani Power Ltd is the largest private thermal power producer in India with an installed capacity of 10,480 MW. Our four power projects are spread out across the states of Gujarat, Maharashtra, Karnataka and Rajasthan.

Adani Transmission Ltd is one of the largest private sector transmission companies in India with more than 7,000 circuit kms of transmission lines across Western, Northern and Central regions of India. The company was listed last year on the National Stock Exchange and Bombay Stock Exchange as a separate entity.

We also provide a range of reliable and environment friendly energy solutions, in the form of CNG and PNG. The above-mentioned installed capacity of Adani Power also includes a 40 MW solar plant at Bitta, Gujarat. Further, the company has operational 648 MW solar power project at Ramanathapuram district in Tamil Nadu, a 100 MW solar power plant in Bhatinda, Punjab and has also recently signed a JV with the Rajasthan government to develop the country's largest solar park in the state with 10,000 MW capacity.

Agro includes modernizing the agriculture sector and bringing food security with self-reliance through its three main agro verticals – Agri-Business, Agri Logistics and Fresh Farm Products.

A joint venture between Adani Group and Wilmar International Limited, Adani Wilmar Limited (AWL) is currently the fastest growing FMCG Company in India with a superior product range of Edible oils, Basmati rice, Pulses, Soya Chunks and Besan.

Fortune, the flagship brand of AWL has consistently remained the no.1 brand from past 14 years.

The company's strong distribution network reaches out to consumers with 1 million outlets spanning all over India, catering to almost 30 million households.

AWL is one of the major industrial suppliers of Oils & Fats, Oleo chemicals, Castor Oil derivatives and Soya value added products

The Group's Agri-Fresh division has the largest integrated apple supply chain with ultra-modern storage infrastructure. Adani's brand FARMPIK is India's No. 1 apple brand.

The Agri-Logistics division manages India's first integrated bulk handling, storage & logistics system for food grains and provide seamless end-to-end bulk supply chain to Food Corporation of India.
